TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS3.

Frameworks/Libraries: jQuery, Knockout.js, AngularJS, Bootstrap, Grunt, Flask, PostgreSQL.

Other: Git/GitHub, Linux, Apache Web Server.

PROJECT EXPERIENCE

LINUX SERVER CONFIGURATION - github.com/thuynh8/udacity-linux-server-configuration-project November 2016

- Installed and configured all required software to turn a baseline Ubuntu Amazon Web Services server into a fully functional web application server, including Apache Web Server and PostgreSQL database server.

NEIGHBORHOOD MAP - neighborhood-google-map.herokuapp.com November 2016

- Single-page, responsive application built with Knockout.js framework and hosted on Heroku.
- Developed a full-page Google map that loads with points of interest in Orange County, CA.
- User can view Yelp ratings at each location (retrieved by AJAX request to Yelp API).

ITEM CATALOG - catalog-2016.herokuapp.com October 2016

- Developed a web application that provides a list of items within a variety of categories and integrate third party user registration and authentication.
- User can use their Google or Facebook account to log in and post, edit, and delete their items.

SWISS-SYSTEM TOURNAMENT - github.com/thuynh8/udacity-swiss-tournament-project August 2016

- A database schema to store the game matches between players.
- Built a PostgreSQL relational database scheme to store the results of a game tournament. Also provided a number of queries to efficiently report the results of the tournament and determine the winner.

WORK EXPERIENCE

DEVELING INTERNATIONAL Orange, CA July 2016 – January 2017
Logistics Coordinator

- Arranged shipment for an average of 30 full containers a month from the U.S. to Asia.
- Secured and prepared all necessary documents to promote the seamless shipping of products across borders, while adhering to domestic and international regulations.
- Managed the accurate and timely processing of over \$500K in invoices a month.

GLIDEWELL LABORATORIES Huntington Beach, CA August 2008 – June 2014
Data Entry Clerk

- Prepared and sorted incoming mail and identified and interpreted data to be entered.
- Entered alphabetic and numeric data from source document into GCM system following format displayed.
- Provided billing functions by use of GCM system.
